Reel 33

KTRD-TV, 10:00 a.m., Interview of Chief Curry by Nelson Benten.

Curry goes into a great deal of detail concerning the evidence which the police department had obtained against Oswald and finally makes the conclusion that the evidence they had on hand established the guilt of Oswald beyond a doubt. Had Oswald not been killed and had he gone to trial, the point could be made that the public mind of Dallas and the probable prospective jurors had been seriously contaminated by such statements.

It seems to me that the propriety of Curry's detailed statement of evidence and his evaluation thereof to the effect that Oswald was guilty is indeed doubtful.

It should be noted that Benten then recapituates all of this evidence, thus the public gets to hear it twice.
